# Hearts for Baghdad: Caring, Giving, Loving

**The Need:** There are many innocent people who need basic quality of life support here in Iraq. A Civil Military Affairs Operation Center operates a medical/dental clinic at Radwaniya on Camp Victory, Baghdad. This clinic reaches out to over 1200 Iraqi women, men and children each month providing basic medical and dental services; hygiene, medical and school supplies, clothing and shoes. All of the supplies are provided by volunteer donors like you. The medical and dental staff are service members who donate time and skills along with other service members who help sort and give out the supplies.

**What can you do?** Organizations and individuals can send supplies to the Multinational Corps Chaplain's office who take the donated items to the clinic for distribution.

**What do we need?** We need supplies. You can send us pre-sorted or bulk supplies at your own expense. Enclose kit items in heavy duty Ziploc type bags.
